

Turkey Dinner Throwdown

Tic-Tac-Toe Instructions

Print the tic-tac-toe board and eight pages of turkey dinner playing chips.

Cut out the turkey dinner playing chips. You should have ten chips for each food item.

This is a two-player game. Have players each choose a food. Players will take turns playing their food chips on the board. The first player to get three of their foods in a horizontal, vertical, or diagonal row wins. If all food chips are played and no one has gotten three in a row the game is a tie and players can go again with the opposite player going first.

Ideas for Play

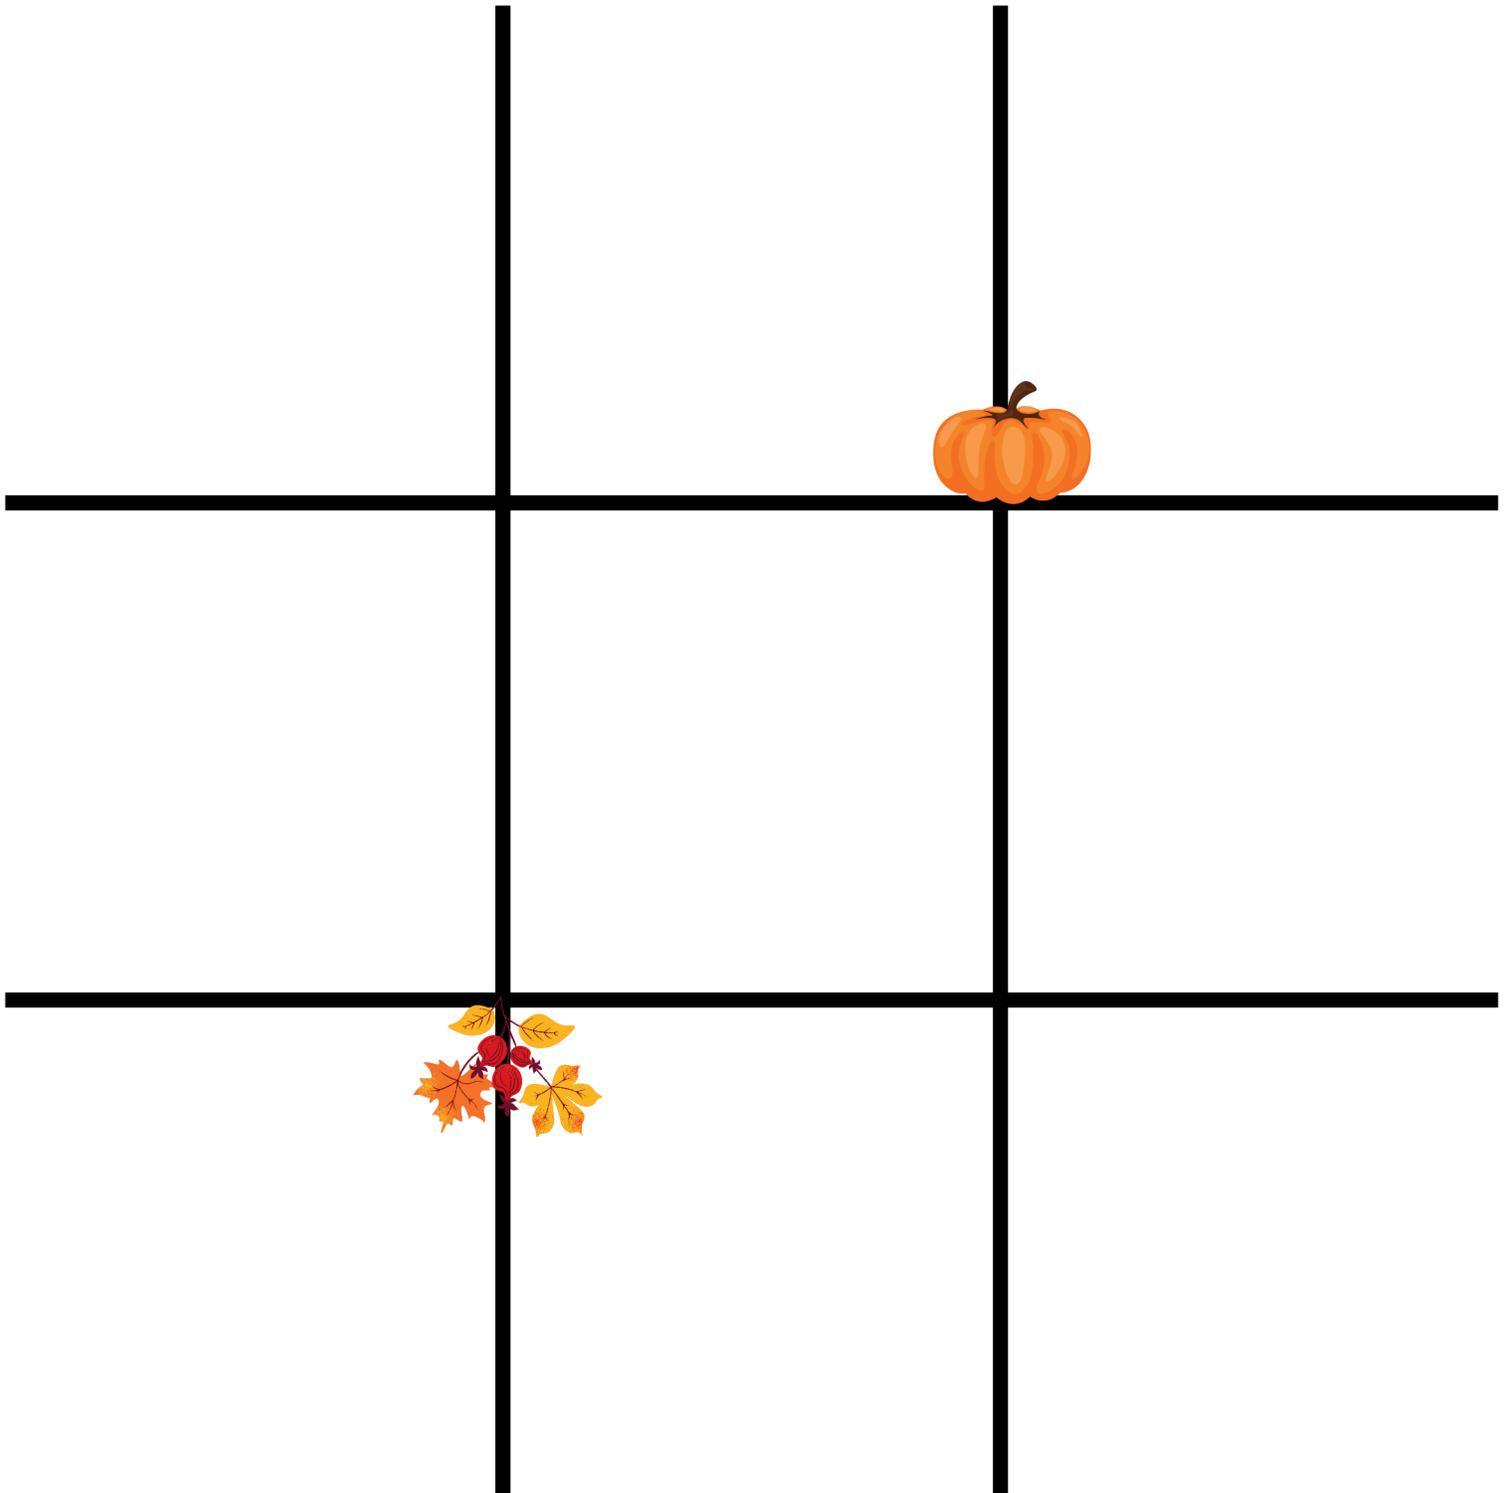

Hold a tournament to see which Turkey dinner food is best of the bunch. Print more boards for more players to battle it out at once.
