

# Instructions

1. Print pages 1-4. If you are preparing the hunt for more than one player, each player will need a blue truck printout and pumpkins 1-6. Page 5 includes extra pumpkins if needed.
2. Cut out all five clues. You only need one set of clues.
3. Cut out all six pumpkins. Paper clip each pumpkin to its corresponding clue. For example, pumpkin #1 goes with clue #1. Pumpkin #6 won't have a clue but you can write a message on the blank card and hide it with that. \*If you are preparing this hunt for many players I recommend attaching the clues to envelopes or DIY paper pockets and placing your pumpkins inside. (See blog post for examples).
4. Hide all clues and pumpkins in hiding places listed. 
5. Give player(s) the farm truck, which has the first clue, to begin the hunt.
6. As players find each clue and pumpkin, have them glue or tape the pumpkin into the back of the farm truck. Stack them in a pyramid to make them all fit.
7. You can hide a surprise at the end of the hunt with pumpkin #6 or use the blank card to write a message like "Happy Fall" or "Happy Halloween."

## Hiding Places

Hide each pumpkin and clue in the following location:

- #1:** Near something red
- #2:** On/next to something green
- #3:** Near something very small
- #4:** Near something round
- #5:** Under something soft
- #6:** Behind a door

**This unripe pumpkin  
can barely be seen.  
It's blending in with  
something green.**

**To find the pumpkin  
that is long and tall  
you'd better look  
near something very  
small.**

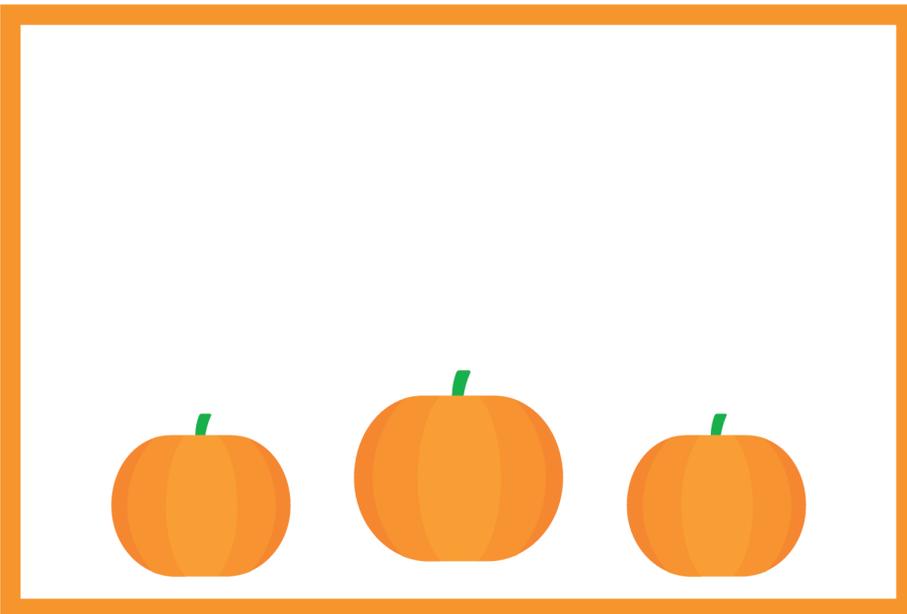

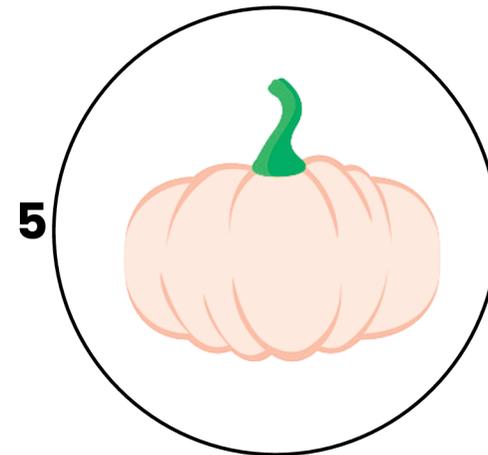

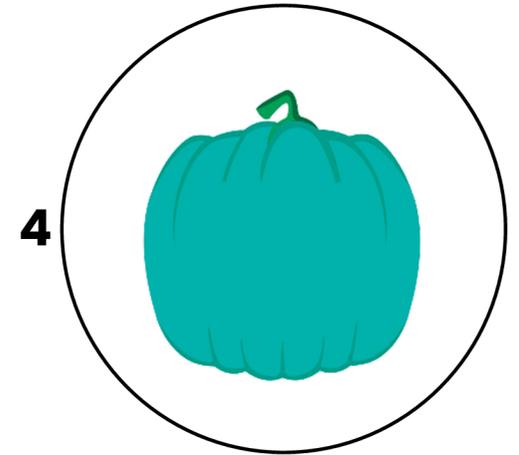

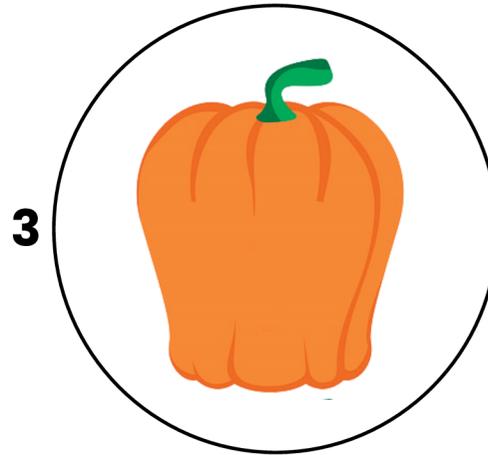

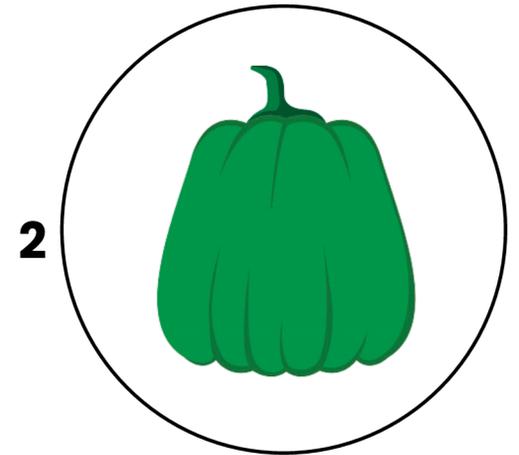

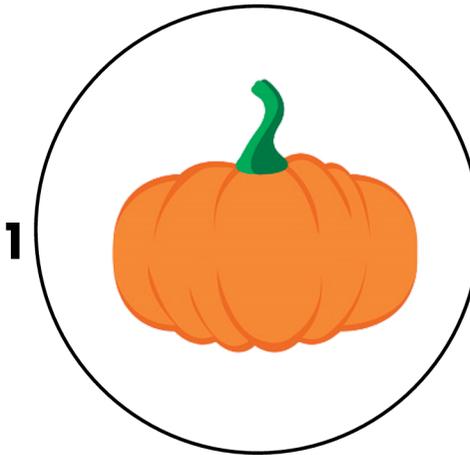

**Look for something  
round as a wheel to  
find the pumpkin that  
is teal.**

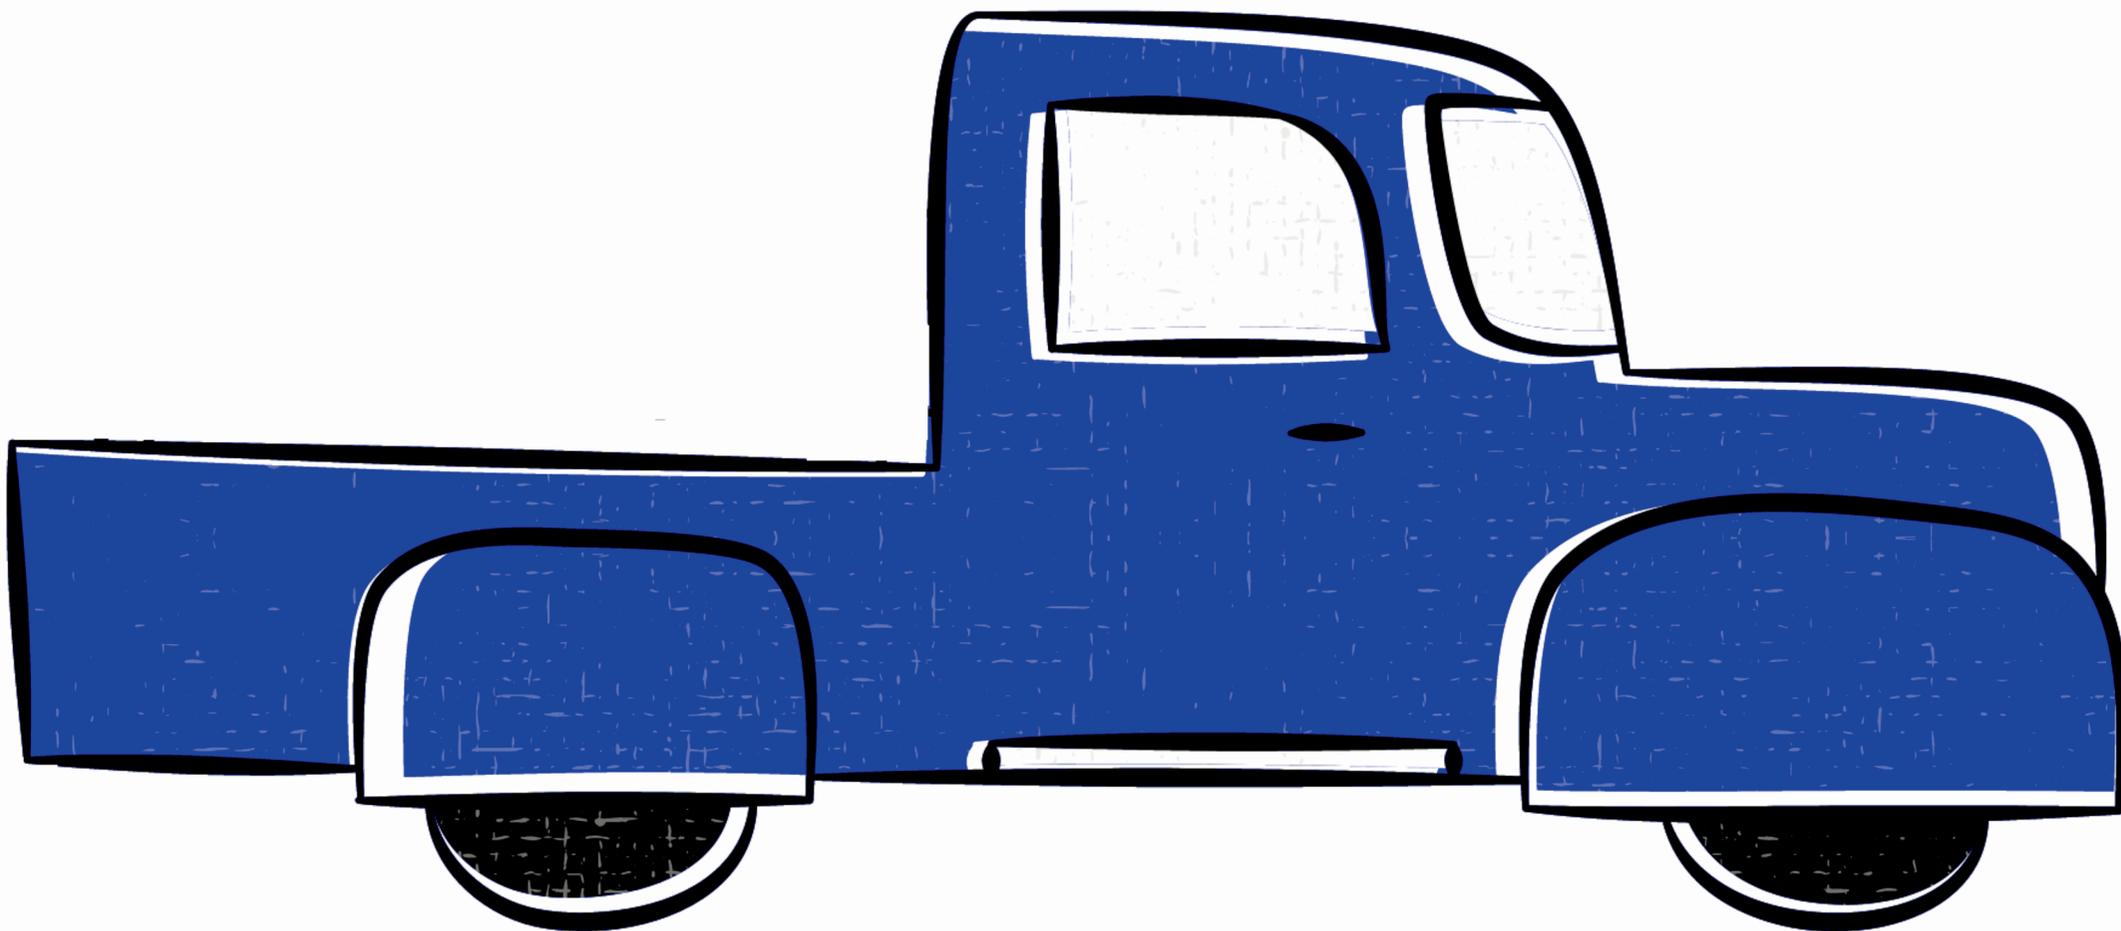

**Find something soft  
and check below to  
get the pumpkin  
that's white as snow.**

**The last pumpkin has  
a big toothy grin.  
Open the door and let  
it in!**

**This farm truck was loaded with pumpkins of every color and shape, but it hit a big bump and the pumpkins escaped! Can you find all six pumpkins and stack them back in the truck bed?  
The first pumpkin landed near something red.**

# Extra pumpkins
