

# Instructions

1. Print pages 2-5. If you are preparing the hunt for more than one player, each player will need a winter scene (p. 2) printout and snowman parts 1-6.
2. Cut out all six clues. You only need one set of clues. Choose an option for clue #6 based on whether you are hiding a treat at the end.
3. Cut out all six snowman parts. Paper clip each part to its corresponding clue. For example, part #1 goes with clue #1. \*If you are preparing this hunt for many players I recommend glueing the clues to envelopes and placing the parts inside.
4. Hide all clues and parts in hiding places listed. Hide a treat with clue #6 if desired.
5. Give player(s) the winter scene printout, which has the first clue, to begin the hunt.
6. As players find each clue and snowman part, have them glue or tape the parts onto the winter scene to create a snowman.

# Hiding Places

Hide each snowman part and corresponding clue in the following location:

**#1:** Under something white

**#2:** Near something tall

**#3:** On or very close to the ground

**#4:** Inside something that can be closed (behind a door, in a box, fridge, etc.)

**#5:** Near something black

**#6:** On something made of wood

**These two cold weather friends want to play! Can you help them build a snowman today?  
Follow each clue to search for the snowman parts. Look under something white to start.**

**Yay, you've found the first snowball! Look for the next near something very tall.**

**There's one more snowball to be found. Keep your eyes low to the ground.**

**Next you'll need a snowman nose. Check inside something you can close.**

**Where are the two eyes made of coal? Look near something black, let's go!**

**Two sticks for arms and our snowman will be good. Find the sticks on something made of wood.**

**Hooray! Our snowman is complete. Now, enjoy this special treat.**

**OR**

**Hooray! Now our snowman is done. We hope you had a lot of fun!**
