

Bar Scavenger Hunt

Ways to play

Teams: Split into teams and deal out the cards. The first team to find all of the things on their cards/complete all the challenges wins the scavenger hunt. Take photos, videos, and notes for proof.

Individual: Each person takes a turn drawing a card and finding that thing or completing the challenge. Bring people or items to the table to show the rest of the players.

Timed: Draw a card and have two people race to complete it. Set a timer for 8 minutes (or more/less). Make sure the two people playing the card have timers set on their phones so they know when time is up. Take photos/videos or bring the items back to the table for proof. You may want to set more time for some cards than others depending on difficulty.

Be safe and drink responsibly!
